DAILY DEMOCRAT-FORUM

(Successor to the Maryville Republican)

VOLUME 1. MARYVILLE, MISSOURI, MONDAY, MARCH 27, 1911. NO. 248.

ELECTION TUESDAY

TO BE HELD IN VARIOUS TOWNSHIPS IN THE COUNTY.

GOOD TICKET IN POLK

For the Democrats and It Should Be Elected—The Candidates on the Ticket.

The township election is to be held tomorrow in the various townships over the county. In Polk township the election will be hotly contested. Polk is nominally Republican by a safe majority, but the Democrats are going to make efforts to elect the entire ticket tomorrow.

For trustee, the Democrats have selected John Murrin, who is well fitted for the office. Mr. Murrin is well known over the township and should be elected. He will serve the people efficiently in that office if selected.

Henry Westfall, for collector, is well qualified for the position. His record in the collector's office the past two years is a good one, as he collected nearly all of the taxes that were to be collected. If you vote for Westfall you will have a man that is able to attend to the duties of the office.

Edward F. Hamlin has had experience in the assessor's office and knows the value of property, making him a good man for that office. He should be elected by a large majority, if qualifications count for anything.

For constable, A. M. Campbell is the nominee. For members of the township board, two good men are candidates, being Elmer Young and Al Heflin. Mr. Young lives near Bedison and Mr. Heflin near Wilcox.

For justices, the five nominees are 'Squire W. L. Johnson, 'Squire J. W. Morris, W. R. Smiley, Ben Thompson and John Halasey.

The Democrats have a good ticket this year, and it should be elected. Don't forget to vote tomorrow.

Scouts Had Good Time.

The Boy Scouts think they had "the best time yet" Saturday, when their chief, Roy Lippman, took them for a day's outing to the farm of his uncle, Adolph Lippman, two miles southeast of Maryville. They took good things to eat along and Chief Lippman cooked them a sumptuous dinner on an outdoor furnace. They ran races and jumped and played ball and enjoyed other outdoor sports that make life worth living to a boy. They marched out and marched back in full uniform and looked formidable enough to put every insurgent Mexican on the run. They are planning some other good days soon, and they think they have the finest superior officers in the land, who are: Roy Lippman, chief scout; Dean G. H. Colbert and Professor John Cameron, adjutants, and Captain E. S. Cook of Company F, N. G. M., drillmaster. The members of the four patrols are:

Ravel patrol—William Van Cleve, captain; Henry Sawyers, corporal; Cary Young, Berney Harris, Leonard Gray, Robert Harris, Elmer Allen.

Owl patrol—Vern Pickens, captain; Leland Leffler, corporal; Paul Pickens, Don Roberts, Toel Lorance, B. E. Condon, Jennings Jackson.

Fox patrol—Joe Farmer, captain; Goff Crawford, corporal; William Hutchison, James Gray, Irwin Harris, Elleston Parcher, Lucian Richardson, Kenneth Van Cleve.

Panther patrol—Phillip Colbert, captain; Forrest Gillam, corporal; Charles Allen, Kirker Sawyers, Harold Sawyers, Claud Glass, Donald Hagins and Jack Holt.

GOV. HADLEY'S REDUCTION OF APPROPRIATIONS TO STATE SCH

A TEN PER CENT CUT

Notice Has Been Sent Boards of Other State Institutions Because State Fund May Drop a Million.

President Taylor said Monday that he has received no word from Governor Hadley as to a 10 per cent cut in the appropriation of the Maryville State Normal school, and that he thought that the school would receive the full appropriation.

Dispatches in the city papers say that Governor Hadley had decided upon a provisional cut of 10 per cent, made necessary because of the fact that the state's revenues for the next two years are likely to fall a million short of the appropriations passed by the legislature.

Notices have been sent out to the boards of managers of various other state institutions, stating that the reduction was made necessary, and that should it develop that there is sufficient revenue to meet the total appropriations, they shall be permitted to draw all that was appropriated.

President Taylor stated further that he thought that no cut would be made in the appropriation for the Normal here, as it was far below what the junketing committee had recommended, and much less than the other state institutions.

Notices were received by some of the state institutions last week, and it looks as if the governor will not send one to the Maryville Normal school.

A cut in the appropriation would cripple the school to a certain extent, as they now have no more funds than is necessary to run a normal school to compete with the others in the state.

PROF. CAROTHERS HERE TO TAKE UP WORK

Prof. J. N. Carothers, an assistant in chemistry at the University of Missouri, commenced work at the Normal school Monday to fill the place of Prof. Hogan, who is quite sick at St. Francis hospital. Mr. Hogan was much better Monday.

MERRILL ALDERMAN SAT UP SUNDAY

Merrill J. Alderman is gaining steadily, and was permitted by his physician, Dr. Charles T. Bell, to sit up a short time Sunday and Monday, a privilege the patient has begged for several days.

His condition is most gratifying to physician, nurses and family, and all their friends rejoice wit hthem.

WABASH PASSENGER DELAYED BY STORM

The Wabash passenger train due at 10:50 a. m. was nearly two hours late Monday, owing to the snow storms that prevailed Sunday and Sunday night at Omaha.

General storms prevailed through the north and northwest Sunday, but the government forecast promises that this unusual weather will prevail but a short time. The temperature was already warming up early Monday morning.

It is not believed that the fruit is injured in this section of Missouri, as the buds on the trees were not opened enough to be seripusly hurt by the sudden change.

Quarterly Meeting Tonight.

The second quarterly meeting for the First M. E. church will be held in the choir room of the church Monday night at 7:30 o'clock. Dr. W. B. Christy, the district superintendent, will preside.

Misses Mary Carter and Mamie Armstrong of Barnard were the guests of Miss Edith Davenport, at the home of her mother, Mrs. S. B. Davenport of South Buchanan street, during the teachers' examination Friday and Saturday.

SUNDAY CLOSING

OF THE DELIVERY WINDOWS AT POSTOFFICE.

NOTICE RECEIVED MONDAY

By Postmaster Beech of the Order—To Take Effect Next Sunday, April 2.

Postmaster S. R. Beech received a letter Monday from C. P. Grandfield, first assistant postmaster general, giving him official notice to close the general delivery and carrier windows on Sundays. The order will take effect on next Sunday, April 2.

Patrons of the postoffice without boxes will be required to wait over Sunday for their mail. Any one desiring a personal letter delivered to him on Sunday will be accommodated by payment of the special fee of 1n cents.

The closing of the windows on Sunday will not meet with much objection from the people it is thought by the postmaster. All mails received on this day will be put in the boxes, and it will take three clerks to do this. These clerks will get time off through the week for the time they put in Sunday. As it is now, on Sundays three clerks are necessary, and they work six hours each.

The action of the postoffice department means a step toward closing the postoffice all day on Sunday. That this will be done is only a matter of time, it is believed.

The letter to Postmaster Beech from Mr. Grandfield is as follows:

As you know, the postmaster general is deeply interested in the welfare of postal employees, believing liberality with respect to compensation and other conditions of employment to be the best policy. He has recommended repeatedly that a law be enacted authorizing him to extend the annual leave of absence with pay for postoffice clerks and city letter carriers from fifteen to thirty days. Although provision to this end was made in the appropriation act for the next fiscal year as passed by the senate, this section of the bill failed in conference. Section 3 of the act, however, provides for allowing clerks and carriers compensatory time off for Sunday work, as follows:

"That hereafter for services required on Sundays of supervisory officers, clerks in first and second class postoffices, and city letter carriers, compensatory time off during the working days in amount equal to that of the Sunday employment may be allowed, under such regulations as the postmaster general may prescribe; but this provision shall not apply to auxiliary or substitute employees."

The postmaster general is very anxious to give the employees the benefit of this legislation immediately, believing that they are entitled to one day's rest in seven, and that their efficiency will be increased thereby. At present, however, nearly one-half of the carriers report every Sunday to make deliveries through their windows, their average service being about three hours, although the amount of mail delivered is very small. As practically all of the carriers are scheduled for forty-eight hours' work during the remaining six days of the week it is impossible to allow them compensatory time for this Sunday work under present conditions. It becomes necessary, therefore, to change the practice with reference to the delivery of mail on Sunday.

There is a very strong sentiment throughout the country in favor of closing postoffices on Sunday, as shown by numerous letters and petitions from the general public and by comments of the press. In a large number of offices the department has authorized the discontinuance of Sunday service where the sentiment was favorable and seemed to justify such action. It is believed, therefore, that the discontinuance of the Sunday delivery, through the carriers' windows at least, can be effected without inconvenience to the public and with great benefit to the officers and employees of the postoffices under the following conditions:

The general delivery window should be kept open a sufficient length of time to accommodate the traveling public and those patrons of the office who call for urgent personal mail. Mails should be received and dispatched as usual and distributed to boxes, enough clerks being detailed for duty on Sunday to carry this plan into effect; such clerks should be allowed compensatory time off during the week. Business men who desire their mail regularly on Sundays should be allowed to rent boxes (at the full rate), even though their mail is delivered to them by carriers on the other days of the week.

The department realizes that a search of the carriers' cases by the general delivery clerk would consume a little time, but it is anticipated that patrons will refrain from calling for mail on Sundays unless the occasion is urgent, and that under such circumstances they would be willing to wait. Any patron desiring an important personal communication delivered to him on Sunday should be accommodated upon payment of the prescribed fee for special delivery service.

To prevent any delay in the first delivery Monday morning, carriers should be required to report a little earlier on that day to route their mail. The only alternative in the case of carriers failing to route their mail within the prescribed time on Monday morning would be to require such carriers to serve a sufficient time on Sunday to perform this work. As this innovation is devised for their particular benefit, however, it is believed that most, and perhaps all, of the carriers would succeed in this respect, and would take pride in exerting a little extra effort to complete their schedules during the week within the forty-eight hours prescribed by law. The Sunday collection from street boxes should not be discontinued. If schedules cannot be rearranged so as to give carriers time off during the week to compensate for the Sunday collection service, it is requested that you report what allowance would be necessary for the payment of substitute or auxiliary carriers.

The department requests your earnest co-operation to bring about this Sunday closing, and suggests that if you have any doubt as to the attitude of the public on the subject you take the matter up with the press of your city, with the ministers and religious associations, and with commercial bodies, and that you report to the department the result, and whether the plan outlined in this letter cannot be put into effect immediately.

Yours very truly,
C. P. GRANDFIELD,
First Assistant Postmaster Gen.

The candidacy of Mr. Oakerson was also endorsed by the entire student body of the school.

DENTISTS IN 1912

COMMITTEE WORKING TO LAND CONVENTION FOR MARYVILLE.

MEET THIS YEAR AT JOPLIN

St. Joseph, Which is in Line for 1912, Will Help Us—Commercial Club to Take the Matter Up.

Dr. H. L. Stinson Dr. E. C. Branger, Dr. Jesse Miller and Dr. N. W. Templeton attended the monthly meeting of the St. Joseph Dental society in St. Joseph Saturday night and talked over plans for securing the state dental convention for Maryville for 1912.

St. Joseph has been promised the convention for that year, but some of the members of that society are in favor of the convention going to some other place. A large number of them would be favorable to Maryville, and so expressed themselves at the meeting Saturday night, and promised their help in securing the convention for this city.

The state dental meeting is to be held at Joplin in June, 1911. The place for the next meeting will then be selected, this work being left in the hands of a committee of nine, three being from St. Louis, two from Kansas City, one from St. Joseph, one from Macon, one from Springfield and one from Joplin. St. Louis, Joplin and Kansas City have promised to vote for St. Joseph for the next meeting place, and since St. Joseph don't want it, it is thought that that city would select the next meeting place.

Ex-President H. K. Taylor of the Normal and a number of the local dentists will attend the meeting in Joplin in June and will present Maryville for the convention for 1912.

There are 500 dentists that attend the convention annually, and if Maryville is lucky enough to be chosen as the city to hold the next one, the convention will be the largest one that ever came to this city.

The Commercial club will take the matter up at a future meeting and will appoint a committee to assist in getting the convention.

Sold Residence Property.

Charles E. Stillwell sold his residence on East Second street Saturday to Jacob M. Ashford, living north of the city, who will move with his family to Maryville within a few months. Miss Mary Carden, who has been visiting her parents, Mr. and Mrs. M. F. Carden, living three miles south of the city, returned to Stanberry Monday, where she is employed as a stenographer for McCarty & Granson.

Mr. and Mrs. Walter Coulter and Miss Mary Coulter of Arkoe were Maryville visitors Saturday.

Misses Dora and Myrtle Rasnic of Barnard were shopping in Maryville Saturday.

The Electric Diamond Suction Cleaner is a Revolution in Suction Sweepers, $25.

The Suction Cleaner market has had our attention for some time. Knowing that many women would like to own a good cleaner, and that the prevailing high prices have prevented them from buying one, we determined to find a sweeper that would do the work second to none and which could be sold at a popular price.

We have found it. It is the Diamond Suction Cleaner. Here are the reasons we have selected it:

it weighs only 5½ pounds, not much heavier than a carpet sweeper.
—it embodies all the best modern ideas.
—it is of high grade, serviceable construction.
—it has a slot ten inches wide, enabling it to cover much surface in a short time.
—on account of its diamond shape it gets into corners easily.
—it has a powerful suction.
—it operates on the power of one incandescent lamp.
—it is only 7½ inches high, enabling it to go under furniture easily.
—it is operated by the well known Ft. Wayne motor.
—it is guaranteed for one year; if any defective parts are found in that time they will be replaced free.

We are so confident of this Sweeper that we offer to send it on free trial to your home so that you can see for yourself how it works and what it does. If it doesn't do the work better than cleaners that sell for three times its price, and if it isn't more convenient and easier to handle send it back.

To Voters.

The election is tomorrow, and among the other officers there will be five, and only five, justices of the peace elected. The Republican convention placed my name on the ticket for one of the justices unsolicited by me and by a unanimous vote. I did not seek nor ask for the nomination, but as my name is now before the voters I would rather be elected than defeated, so I hope when you make out your ticket tomorrow my name will be found upon your ballot.

Yours truly,
CALVIN D. M'KIBBAN.

The complaining witness was Wm. H. Morris, who lives across the street from Mrs. Lewis. It is said that the trouble started over some chickens, and that Mrs. Lewis, on March 7, exhibited a revolver "in a rude, angry and threatening manner," and fired two shots and told Mr. Morris not to come in her yard again.

Mrs. Lewis is 35 years old and has a family of three children.

SEEK TO IDENTIFY THEIR DEAD

Two Hundred Thousand Gather at Improvised Morgue.

SINGLE GRAVE FOR MANY.

Girls and Men Hurtle Blazing From Top Floors of Building and Others Burn to Crisp in Holocaust Starting on Seventh Floor.

New York, March 27.—What will go down in history as the fire disaster of Washington square entered upon its aftermath today with eighty-five of nearly 150 victims identified. The official death list has been lessened rather than increased.

A revised count shows 142 dead, with twelve women and girls at death's door in the hospitals. One hundred and fifty, all told, will perhops cover the casualties.

Two hundred thousand persons, the police estimate, filed in a serpentine line to the pier from the opening of the improvised morgue.

Nearly a hundred coffins lay in a long row upon the pier, awaiting removal or identification of the charred bodies they contained. Forty human forms, so burned, blackened and distorted that they cannot be recognized, lay covered by white canvas in plain pine coffins apart from those less horribly mangled.

Were Makers of Shirtwaists.

Nearly all the dead were employees of the Triangle Waist company on the seventh, eighth, ninth and tenth floors of the building.

The fire started in the electric motor box, which supplied power to the hundreds of sewing machines on the various floors. It spread so rapidly that all escape was cut off on the stairs and fire escapes below the seventh floor.

Crazed by terror, the men and women operators abandoned all efforts to fight their way through the smoke-filled hallways to the stairs or fire escapes, and leaped madly from the windows.

Within ten minutes after the blaze was discovered thirty-five crushed and mangled bodies were lying below on the pavements. To add to the horror of the scene the police found themselves unable to control the gigantic crowd which speedily gathered. The men and women in this crowd, crazed by the sight of the blazing bodies hurtling down from the top floors of the burning building, fought their way through the fire lines and hampered the work of the firemen and surgeons.

The building, which is at the corner of Washington Place and Green street, is one of the biggest in the clothing manufacturing district. There were 1,500 men and women employed in it when the fire started, but virtually all of those below the seventh floor managed to escape.

Those on the upper floors, however, had no time in which to reach a place of safety. The first burst of flames sent a hundred shrieking women on the seventh floor to the stairways, which were speedily choked by the terror-maddened women.

Fighting and shrieking for help, the first twenty of them plunged down the stairs, landing in a tangled heap at the foot. The others who attempted to follow them were blocked and their shrieks added to the general pandemonium.

Meanwhile the men and women on the eighth, ninth and tenth floors, terrified by the shrieks of those below and the clouds of smoke that rolled up the stairs and elevator shafts, dashed madly around the stairs and hallways.

Those who fled to the fire escapes found their escape blocked by groups of shrieking women, who feared to risk the descent through the flames that were leaping out from the windows of the upper floors.

Only Seven Exits.

In all there were seven exits—the single fire escape, two freight elevators at the rear, two passenger elevators in front and two stairways. All of them proved useless and practically all who escaped either climbed to the roof and scrambled thence to the roof of the building occupied by the American Book company adjoining, or fled in the first rush for safety before the crush and smoke grew thick.

The building stands today with shell intact and barely scarred, rather only smudged. The partitions of architectural tiling between floor and floor are sound, and it is impossible for one who did not see it to imagine how the flames in so short a space could have wrought such havoc.

The employees sat in rows at their whirring machines, the tables before them piled high with flimsy cloth, the floor littered with lint, the air itself full of flying, inflammable dust. The first rush of flames was almost an explosion. Operators died in their chairs, their lungs seared by inhaling flame. Others were crowded into the elevator shafts after the cars had made their last trip. Still others were pushed off the inadequate interior fire escape.

In such a horrible stream did the bodies overflow from the windows that the fire nets, stretched by the first company to arrive, were soon gorged beyond capacity. Twelve bodies weighted one net to the bursting point, but the bodies kept on tumbling to the pavement through meshes that could no longer support them.

THE CAMORRA TRIAL.

From Photograph Taken At Criminal Hearing of Band of Alleged Slayers.

(This remarkable picture, just received from Italy, shows the beginning of the great criminal trial. In the cage guarded by soldiers, are thirty-four prisoners, all of whom are charged with taking active part in the Camorra slayings. The three seated figures with their backs to the main cage are, from left to right, Ciro Vitozzi, the priest who is one of the prisoners; the wife of one of the prisoners and Capizzuti, who unearthed the secrets of the murderous society.)

CHINA DECIDES TO YIELD ALL POINTS

Assures Russian Minister Will Agree Unreservedly.

Peking, March 27.—China is not prepared to antagonize Russia completely and as a result of prolonged conferences the Chinese foreign office assured the Russian minister, M. Korostovetz, that China will acquiesce unreservedly today to the demands made in the Russian ultimatum concerning the provisions of the treaty of 1881. Russia insisted upon an answer before tomorrow. It is generally considered that here was no alternative course, in view of China's unpreparedness for war. Intense interest is being manifested in the attitude of Japan, which is holding entirely aloof.

BIG SUM IN LITIGATION

Criminal Suit at Seattle Involves Alaskan Coal Land Worth $100,000,000.

Seattle, March 27.—A criminal trial upon whose issue may depend the title to land valued at a larger sum than the public debt of the United States will begin in the United States district court here tomorrow before Judge Cornelius H. Hanford. The case is that of the United States against Charles F. Munday, Archie W. Shield, A. H. Stracey and Earl E. Siegley, who were indicted by a federal grand jury at Tacoma, Oct. 14, 1910, on a charge of conspiracy to defraud the government out of coal lands in Alaska, the lowest expert estimate of whose value is $100,000,000. The land is in a compact body in the vicinity of Bering river, near Katalla. According to land office officials Munday organized the Alaska Development in 1907 and later went to England, where he interested English capitalists in the scheme. Stracey, land office officials allege, sent forty-two of his employees to Alaska and paid them $100 each for filing on coal claims. But, according to land office officials, Stracey did not press these filings, but interested friends in the deal and induced them to make locations in their own names.

DEATH LIST NOW NINE

Baggagemaster of Dixie Flyer Succumbs to His Injuries.

Tifton, Ga., March 27.—J. E. Powell, baggagemaster of train No. 95, known as the Dixie flyer, on the Atlantic Coast line, which went through a trestle over the Alapaha river, died after reaching the hospital at Waycross. This brings the death list up to nine.

None of the others injured, it is said, is in danger. The body of John T. Watson of Lander, Wyo., was the last one recovered. His fiancee, Miss Eliza Shippey of Pasadena, Cal., who stayed at the wreck and watched the rescuers until his body was found, accompanied it to Waycross.

Germany in Fear of Over Education.

Berlin, March 27.—Confronted with facts and figures showing that the universities of the empire are turning out young lawyers, doctors and other professional men at a rate far exceeding the growth of the population, certain German educators are agitating the question of limiting the university attendance.

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good!! Hereafter for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Ends Cut Rate Insurance.

Some insurance men appear to have overlooked one insurance bill that passed both houses of the legislature and is now in the hands of Governor Hadley. It is called the "insurance rating bill," and provides that all rates for premiums made by the companies must be filed with the state superintendent of insurance, who is given power to make reasonable rates.

The superintendent is not required to make rates in the first instance, but if complaint is made that the rates are not fair he is authorized to give a hearing, and if it is his opinion that the rates made by the company are too high he can order a lower rate and require the companies to write insurance at the lower rate.

The bill also contains an anti-discrimination clause which provides that when a rate is fixed the agents cannot sell insurance at rates that are either higher or lower than the rates on file. It is made a misdemeanor to divide a commission or cut the rate for a favored customer, the same as to overcharge another customer. Jail sentence is a possible penalty, although the punishment grades down to a small fine of $50.

Catarrh is Surely a Dangerous Disease.

Thousands of people allow catarrh to slowly undermine the whole system until a serious disease develops—sometimes consumption.

People who have catarrh should use every effort to get rid of it, but should above all adopt a sensible method.

Stomach dosing, sprays and douches won't cure catarrh because it is a germ disease, and the germs must be destroyed before the disease can be conquered.

Hyomei is the one sensible cure for catarrh because it reaches every fold, crevice and nook in the mucous membrane and gets where the germs are. You breathe Hyomei and as it passes over the inflamed membrane its soothing influence heals the soreness and destroys the germs.

A complete Hyomei outfit costs $1.00. This consists of a bottle of Hyomei and a hard rubber inhaler. Pour a few drops of Hyomei into the inhaler and breathe it a few minutes each day, that's all you have to do. It is guaranteed by the Orear-Henry Drug company and druggists everywhere to cure catarrh, coughs, colds and sore throat or money back. Extra bottle of Hyomei costs 50 cents. Free trial sample on request, from Booth's Hyomei Co., Buffalo, N. Y.

Miss Blanche Gray of Clarinda, Ia., visited in Maryville from Saturday until Monday morning with her uncle, William T. Gray, on East Jenkins street. She left Monday morning for her new home with her father at Keystone, Okla.

Mrs. W. R. Evans went to Eagleville, Mo., Monday morning to visit her mother, Mrs. Thomas Weeks. Mrs. Evans is the wife of Mr. Evans, proprietor of the West Third street variety store.

SAGE FOR DARKENING THE HAIR.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of sage leaves and applied it to their hair with wonderfully beneficial effect.

Nowadays we don't have to resort to the old-time, tiresome method of gathering the herbs and making the brew. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product. Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by

Koch Pharmacy.

DIAZ NAMES HIS CABINET

De La Barra Selected as Minister of Foreign Relations.

LIMANTOUR TO KEEP PLACE.

Minister of Finance Will Still Retain His Present Portfolio—Mexican Ambassador Telegraphs His Acceptance From Washington.

Mexico City, March 27.—Francisco de la Barra, Mexican ambassador to the United States, was named minister of foreign relations of the Mexican cabinet by President Diaz. Senor de la Barra has telegraphed his acceptance from Washington.

Although no official announcement has been made, it is known that five of the new members of President Diaz's cabinet have been elected, and it is almost certain Senor Jose Yves Limantour will remain as minister of finance.

Other selections besides Senor de la Barra as minister of foreign relations are:

Demetrio Sodi, judge of the supreme court, minister of justice, succeeding Justino Fernandez.

Norberto Dominguez, postmaster general, department of communications, succeeding Leander Fernandez.

Manuel Maroquin, well known civil engineer, department of fomento (promotion of colonization and industry), succeeding Ologario Molina.

Jorde Vera Estanol, an attorney, minister of education, succeeding Justo Sierra.

For the departments of war and interior no hint has been given as to their incumbents.

Reyes Returns to Army.

General Bernardo Reyes, now in Italy, who by many was believed to be slated for the post of secretary of war and marine, is returning to Mexico, but not to serve in that capacity, it is believed. According to a high authority, he will return to serve in the army.

With the exception of General Diaz himself, there is no man in Mexico whom the Mexican people credit with greater military genius than General Reyes, and it is believed the mere knowledge of the fact that he is to be sent into the field would do much to break the spirit of the revolution.

With the changes in the cabinet, reforms will be enacted, it is currently reported, which will include changes in the electoral system, effective suffrage in the election of state governments and a reformation of the powers of the jefes politico. It is said a full program of these reforms will be given in the president's message next Saturday at the opening of congress.

HICKS HAS NARROW ESCAPE

At Bottom of Frisco Bay, Working in Diving Suit, Air Is Shut Off.

San Francisco, March 27.—When a barge capsized in the bay, Quartermaster J. C. Hicks of the United States navy narrowly escaped a horrible death by asphyxiation. In a diving suit he was working at the bottom of the bay laying water pipe. Air was forced down to him by an air pump manned by several sailors stationed on a barge, who were thrown into the water when a heavy swell from a boat struck the barge. With the air supply cut off, and receiving no answer from his signals, Hicks soon lost consciousness and was only rescued by the prompt action of the sailors.

WOMAN IS ACTING DIRECTOR

Miss Kelly Will Have Charge of Mints During Absence of G. E. Roberts.

Washington, March 27.—Secretary MacVeagh approved an order which will place a woman in direct charge of all the mints and assay offices in the United States for short intervals at various times within the year. She is Miss Margaret V. Kelly of the mint bureau, one of the three highest paid women in the government service. George E. Roberts, director of the mint, is obliged to be absent from the treasury much of his time, and R. E. Prestum, the mint examiner, is away much. In such cases Miss Kelly will be acting director of the mint, with full powers.

MILKADO'S MESSAGE TO TAFT

Does Not Believe He Credited False Reports About Japan.

Washington, March 27.—Baron Uchida, the Japanese ambassador, called at the White House and presented to President Taft a personal message from the emperor of Japan.

The emperor declares he was already convinced that the president has given no credit to the "false and wicked reports regarding Japan." The emperor warmly reciprocates President Taft's assurances of friendship between the two countries.

Standard Absorbs California Field.

San Francisco, March 27.—Following upon an announcement made a few days ago that the South Pacific company had named a price for the sale of its controling interest in the Associated Oil company to an eastern syndicate, a report appears in the Chronicle that it is the Standard Oil company that has secured the option of purchase.

"Knocked Daylights Out of Rheumatism"

New Rheumatism Remedy Is Antidote For Uric Acid.

"By thunder, I got a whole case—a dozen bottles of the 'Fuss' Rheumatism Cure, determined to get cured of my 3-year case of bull-dog

inflammatory rheumatism. I didn't need the dozen, you bet you,—three bottles knocked the daylights right out of it and cured me completely. The other nine bottles I gave to rheumatic friends, and they are hopping around pretty lively now, same as I am. 'Fuss' is a wonder."

This is but one of hundreds of similar reports on this amazing remedy, the only known antidote to uric acid. Furthermore, it is as safe as food, containing no chloral, opium, morphine, cocaine, alcohol, ether, chloroform or other stimulant or narcotic; not a drop.

"Fuss" gives immediate relief, and destroys uric acid in the blood which causes rheumatism, gout, lumbago and kidney trouble.

Don't hesitate but get "Fuss" and stop the agony right off and get cured.

"Fuss" Rheumatism Cure sold at $1.00 a bottle by all leading druggists or will be sent prepaid on receipt of $1.00, or bottles for $5.00, by the Fuss Remedy Co., Flint, Mich.
